Scott Farm Seed Company

**Mechanicsburg, Ohio****DEAR SCOTT CUSTOMER:**

It's so easy to put off ordering seed until tomorrow or maybe the first of next week, and some will put it off even longer, and then comes the rush and everybody wants seed at the same time. Get your order made up now. Prompt shipment can be made on all but a few items and these will be ready soon.

Use SCOTTS this spring. You can depend on high germinating, clean, noxious weed free seed that will produce a nice crop for you. Mr. J. G. Meadows of West Virginia just wrote: "I have always stated to my neighbors and many others that I have at all times got better and cleaner seed from you than from any other. I shall always have a good word for your firm and seeds."

Seed Grains

All the Oats and Barley are well cleaned, treated, and as high as 98 in germination. Some are not quite as bright as last year because of rainy weather at harvest time.

We don't know which variety is the best. Mindos are 4 to 6 days earlier than Clinton, as disease resistant, not quite as stiff strawed but stiffer than Columbia. They have done well in the southern oats belt and probably will take the place of Columbia. Clintons are disease resistant, stiff strawed, high yielding and widely adapted. Mohawks are similar but have yielded a little more in parts of Pennsylvania and New York.

Clinton 59 is an improved Clinton and is more uniform in height and maturity. Bentons are several inches taller, a little later and, of course, make more straw. Eaton is a white variety and similar to Clinton in disease resistance and strength of straw.

Wisconsin 38 and Bay barley are the best spring varieties. Both are smooth bearded and high yielding with Bay slightly stiffer strawed.

Alfalfa and Clovers

Crop News and Views, enclosed, tells a lot about the newer varieties of legumes. If you're having trouble getting good stands try some of these disease resistant kinds in at least a part of the new seedings. There is also a good selection of common varieties. Brome grass, timothy, special pasture grasses and meadow and pasture mixtures are the best of quality and available in whatever amount you need.

Hybrid Corn

Here is a wide selection in hybrids and maturities. The seed shows strong, vigorous sprouts; is graded to plant without trouble, and is treated. Scotts Hybrid Seed Corn will produce a good crop for you. Look again at the hybrid folder mailed with the January price list. It may help in making your selections.

Soybeans, Sudan, Sorgo

Richlands are early, stiff stalked and good producers on productive soils. Hawkeyes are similar in maturity and stiffness, but the plants grow larger and average yields are a little higher. Lincolns are about a week later in maturity, not quite as stiff stalked, produce well on different soils, and average highest in yield. The black and brown varieties are used mostly for hay or silage.

Sudan and buckwheat are ready to ship and sorgo, millet and cane will be on hand soon. Don't put it off; **Order SCOTTS Farm Seeds Now!**

MEADOW AND PASTURE MIXTURES

MEADOW MIXTURES

Seed 14—18 lbs. per acre.

For High Lime Soils
SCOTTS Alfalfa Mixture.....\$49.50 cwt.
(Alfalfa, Red Clover, Timothy)

For Medium Lime Soils
SCOTTS Red Clover Mix \$45.50 cwt.
(Red Clover, Alfalfa, Alsike, Timothy)

Where Soil is Acid or Drainage is Poor
SCOTTS Red Clover Alsike \$41.50 cwt.
(Red Clover, Alsike, M. Fescue, Timothy)

For Medium Lime Soils
(No Grasses)
SCOTTS Legume Mixture \$57.50 cwt.
(Red Clover, Alfalfa, Alsike)

SCOTTS Crop-Land Pasture Mixture
.....\$60.00 cwt.

Contains Ladino, Louisiana White Clover, Birdsfoot Trefoil, Kentucky Bluegrass, Alta Fescue, Reed Canary Grass, Brome Grass, Orchard Grass, Perennial Ryegrass and Redtop. Sow 25—30 lbs. per acre.

SCOTTS Crop-Land Mix is suggested where the field is to be left in pasture for at least five years and where heavy grazing is desired. Apply fertilizer, and lime where needed, and follow recommended seeding methods.

Green Manure Mixture.....\$32.00 cwt.

Eighty percent legumes for soil building and plow under. May also be used for pasture or hay. Contains Mammoth, Sweet Clover, Alsike and Timothy. Sow 15—18 lbs per acre.

SCOTTS Spring Pasture Mixture.....
.....\$39.00 cwt.

A balanced, widely used mixture of legumes and grasses containing ladino clover for establishing highly productive permanent pastures. Contains alfalfa, red clover, alsike, ladino, Kentucky bluegrass, meadow fescue, timothy, orchard grass and ryegrass.

Special Pasture Mixture.....\$27.00 cwt.

A good mixture where lespedeza can be grown successfully. Forty percent legumes by weight. Contains alsike, white clover, lespedeza, ryegrass, meadow fescue, timothy and orchard grass.

Pasture mixtures are sown 20 to 25 lbs. per acre for new seedings and 10 to 15 lbs. per acre for reseeding an established pasture.

TREATED HYBRID SEED CORN

SCOTTS Hybrid Corn has been graded for width, length and thickness and will plant easily and accurately in any make of planter. Ohio certified Hybrids not listed are available upon inquiry.

The round kernels are graded uniformly and will yield just as well as the flats but special plates are usually required for accurate planting. All corn is treated for protection against disease.

EARLY MATURING HYBRIDS

	Round Grade	Flat Grade
SCOTTS 11.....	\$8.50 bu.	\$11.00 bu.
Ohio M-15.....	8.00 bu.	10.00 bu.

Ind. 750 (White).....		10.00 bu.

SILAGE BLENDS (Early or Late).....\$6.00 bu. WOODBURN (Open Pollinated).....\$6.00 bu.

ROUNDS—Only medium and large rounds are offered. Carefully graded, high in germination, produce strong plants, and will yield as well as flats at a saving in seed cost. The same grades are available each year.

SCOTTS 11—Slightly earlier than Ohio M-15. Large ears for an early hybrid. Has out-yielded Ohio M-15. Sound dark yellow ears. Suited to short season or late planting.

SCOTTS 22—The maturity of Ohio M-20 and M-34. Has outproduced its maturity class on many different farms. Good roots, sound ears, good quality fodder, dries out quickly.

SCOTTS 33—Maturity of K Hybrids. A real producer with disease and smut resistance. Easy husking, nice fodder, not as tall as K-24. Will pick clean and crib early.

SCOTTS 66—One of the best medium maturing hybrids in the corn belt. Disease resistant, husks easily, strong roots, high yields on a wide variety of soils.

SCOTTS 60 W—A white hybrid, medium sized fodder and ears. A good producer in its maturity class. Strong roots and stalks, good crib corn. Thoroughly tested in the corn belt.

EARLY SILAGE BLEND—A blend of the earlier maturing hybrids for short season use. Seed is uniformly graded and above 90% germination. Will plant 8—10 acres per bushel and may be used for crib corn.

SCOTTS 75—Slightly earlier and not quite as tall as most of the C Hybrids, blight resistant, sturdy stalks, large dark yellow ears, bred for handy size and high yields.

SCOTTS 99—Maturity of U. S. 13 and bred for more corn borer resistance and higher yield. Dark green color. Not quite as tall as U. S. 13. Good sized, sound ears.

LATE SILAGE BLEND—A blend of the later maturing hybrids recommended for full season planting. Slight variation in maturity gives high yields of balanced quality feed. May be used for crib corn.

SEED OATS, BARLEY

Clinton (Certified).....	\$1.80 bu.
Clinton 59 (Certified).....	2.60 bu.
Mohawk (Certified).....	2.25 bu.
Mindo (Certified).....	2.00 bu.

Mindo—Equal to Clinton in disease resistance, 4 to 5 days earlier maturing, stiffer strawed than Columbia.

Clinton (from Certified).....	\$1.60 bu.
Benton (from Certified).....	1.50 bu.
Eaton (from Certified).....	1.50 bu.
Barley (Wisconsin 38).....	3.00 bu.
Barley (Bay—Michigan Grown).....	3.00 bu.

All Seed Oats and Barley are treated without extra charge. This treatment is recommended by the U. S. D. A. and State Experiment Stations for the control of certain smuts and seedling diseases. Treatment improves stands, yields and quality of grain.

SOYBEANS

Hawkeye (Certified).....	\$5.50 bu.
(Maturity and standing ability of Richland. Yield equal to Lincoln.)	
Richland (Uncertified).....	3.60 bu.

Lincoln (Certified).....	\$3.85 bu.
Lincoln (Uncertified).....	3.50 bu.
Black (Kingwa Type).....	3.60 bu.

Inoculation, necessary if beans are to add nitrogen to the soil, is furnished on orders without additional charge.

SUDAN AND SUNDRY SEEDS

Sudan Grass (Western).....	\$11.00 cwt.
Sweet Sudan.....	12.50 cwt.
Amber Cane.....	9.00 cwt.
Atlas Sorgo.....	9.00 cwt.

Golden Millet.....	\$10.00 cwt.
Buckwheat.....	3.00 bu.
Syrup Cane (Cert. Williams).....	.30 lb.
Dwarf Essex Rape.....	.20 lb.

Certified Ohiogold No. 1.....	\$.50 lb.
Golden Cross Bantam.....	.40 lb.
Stowell's Evergreen.....	.25 lb.
Hybrid Popcorn (Purdue 31).....	.75 lb.

Scott's FARM WEED KILLER

STANTOX 66

Liquid Amine Salt)

A 40% 2,4-D acid equivalent applied ½ pint and up per acre. Can be applied in 5—10 gallons of water per acre.

1 Gallon Can.....	\$8.15 gal.
5 Gallon Can.....	7.90 gal.

STANTOX P-44

(Ester Form)

A 37% 2,4-D acid equivalent in ester form applied ½ pint and up per acre. For hard-to-kill types of weeds.

1 Gallon Can.....	\$10.00 gal.
5 Gallon Can.....	9.75 gal.

SCOTTS 4-X DUST

(Dusting Form)

¼ Acre Size.....	\$1.35
1 Acre Size.....	3.90
Horn Duster.....	.90
Hand Crank Duster.....	20.15
(Dobbin's No. 200)	

HOW TO ORDER. Kindly include full remittance for prompt shipment. For later delivery, a deposit of 25% should accompany the order, with the balance payable at time of shipment. Personal check, bank draft, money-order or cash acceptable. Be sure to tell us if your freight station is different from your postoffice address. Parcel post shipment is more satisfactory on orders under 60 lbs. Please include postage.
